

June 25, 2014

Dear Resident of the Berne Sewer District:

The engineer has given the green light to start hook up to the sewer laterals provided by the Sewer District. You must first obtain a permit from the building department before you can do any work.

If you have a grinder pump, it must be hooked up by a licensed electrician and inspected before you tie into the grinder pump.

There are three approved contractors that you may use to do the digging and septic tank abandonment. They are as follows:

Barron's Hilltown Plumbing & Heating	872-9896
Get It Done Construction	829-7256
Heldeberg Contracting, LLC	872-2058 or 376-1532

Please be advised that you have six (6) months to tie into the system. If you have any questions, contact the Town Hall, ext. 103 or 104.

Thank you for your cooperation.

Sincerely,

Kevin G. Crosier  
Supervisor
